Visibility From Any Directions

NV Business Suites is ideally situated in the 6,000-hectare BSD City, a master-planned hub with top-tier infrastructure and multiple toll road access points. As part of an international ecosystem, it attracts multinational companies and offers vibrant lifestyle amenities, including retail, entertainment, and Indonesia's largest event venue, ICE BSD. Serving a population of 450,000 and a catchment of 1.8 million within 30 minutes, BSD City stands as a premier business destination.

A Grand-scale Workspace

Step into a grand-scale workspace designed for limitless potential and inspired productivity. Expansive, open, and thoughtfully crafted, this environment seamlessly balances elegance and functionality, providing ample room for teams to innovate, connect, and thrive. Featuring a striking double-height ceiling on the first and second floors, the space feels both majestic and inviting, fostering an atmosphere that encourages growth and collaboration.

A Reflection
of Your Success

First Class Business Suites

The ultimate in luxury and exclusivity within Tangerang's most prestigious development. Featuring high-end landed offices, a private drop-off area, and a sleek Low-E glass facade, every detail is crafted to inspire success. With ample parking and 24-hour access, convenience meets sophistication in a setting that redefines first-class.

Low-e glass & solar panel

Low-E Glass (Low Emissivity Glass) allows natural light to enter while blocking infrared and UV rays, keeping interiors cool and protected without sacrificing brightness. Meanwhile, Solar Panels harness clean energy from sunlight, reducing dependency on traditional power sources.

Sheltered pathways

NV Business Suites features sheltered pathways that seamlessly connect each unit, offering protection from both heat and rain. Enjoy uninterrupted comfort and convenience as you move throughout the space, regardless of the weather.

Two levels of parking spaces

Designed for efficiency and comfort, our ample parking facilities accommodate all visitors, prioritizing accessibility at every step. Motorcycles have designated parking in the basement, ensuring a smooth and organized experience for everyone.

Great visibility for product showcase and branding

The first and second floors of our building feature glass facades, enhancing visibility and providing a distinguished platform for product displays and brand exposure. Capture consumers' attention and elevate your brand to new heights.

Part of Global Ecosystems

Vibrant Community

BSD City is home to a vibrant population of 450,000 residents and daily visitors who live, work, study, and enjoy leisure activities within the area, attracting a mid-to-upper class demographic. The city also draws from a surrounding population of 1.8 million, making it a highly connected and thriving urban hub.

Networking Opportunity

NV Business Suites benefits from world-class events that attract global audiences and industry leaders. These events offer unmatched networking opportunities, elevate the area's prestige, and drive traffic to surrounding businesses, creating a dynamic environment where innovation and growth thrive.

Let's Grow Together

NAVAPARK
HIGHER LIVING

NavaPark is a Landmark Collaboration Between Hongkong Land and Sinarmas Land, Where the expertise of Asia's premier property developers meets Indonesia's largest and most diverse land bank, creating an extraordinary residential masterpiece in BSD City.

DISCLAIMER

Neither the Developer nor its agents will be held responsible for any inaccuracies or omissions in the information contained in this brochure. The Developer does not accept responsibility for any errors or omissions or for any losses suffered by any person or legal entity resulting from the use of the information contained in this brochure, howsoever caused. The statements, visual representations, models, show units, displays and illustrations, photographs, art renderings and other graphic representations and references are intended to portray only artist impressions of the development and décor and cannot be regarded as accurate or representations of fact. All areas and other measurements are approximate measurements and are subject to change and final survey. All plans and models are not to scale unless expressly stated and are subject to amendment. All information, specifications, renderings, visual representations, measurements and plans are subject to change as may be required by us and/or the relevant authorities. The Sale and Purchase Agreement (SPA, also known as PPJB) shall form the entire agreement between the Developer and the Purchaser and shall supersede all statements, representations or promises made prior to the signing of the SPA and shall in no way be modified by any statements, representations or promises made by us or our agents which are not embodied in the SPA, whether before or after the signing of the SPA. Any explanation concerning the SPA and the development is for information purposes only and it is recommended that potential Purchasers seek independent legal advice with regard to the proposed purchase. Marble and granite are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble or granite cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. Hence some differences may be felt at the joints. The tonality pattern of marble or granite selected and installed shall be subject to availability. Timber is natural material containing veins and tonal differences. Thus it is not possible to achieve total consistency of colour and grain in its selection and installation. Layout/location of kitchen cabinets, fan coil units and electrical points are subject to Developer's sole discretion and final design.
